

Project Management Professional Master Class

SCILS Management Centre

Course Specifications

Mode of Study : Offline study mode

Location : Lagos

Duration : 6 days

Intake : March

Course Summary

In so many areas of our lives, we use project management without even realizing we are. Whether it's brushing your teeth or building a skyscraper, we all use project management every day. The point is AS LONG AS YOU GENERATE IDEAS, HAVE GOALS/TASKS TO ACCOMPLISH, YOU NEED PROJECT MANAGEMENT SKILLS. Project management provides a framework to help accomplish goals. All projects begin with an idea. Be it a business opportunity, such as a new product or a problem in need of a solution. Being properly grounded in Project Management equips you with the necessary tools and techniques needed to plan; control "project" activities to ensure goals and objectives are achieved on time, to the desired quality, within specification/requirement and budget.

General Training Objectives:

You will have the opportunity to:

- Define project and Project Management
- Learn how a project is initiated
- Learn how a project is planned
- Learn how a project is controlled
- Learn how a project is closed

Specific Learning/Training objectives are:

- To pre-assess participants' prior basic project management knowledge and skills
- To educate participants about PMI and its activities
- To enlighten participants' about the PMI -PMP certification requirements
- To familiarize participants' with the PMI PMBOK VERSION 6
- To comprehensively discuss the ITTO (Inputs, Tools, Techniques & Outputs) of the 49 project management processes, the five Project management process groups, 132 Tools and Techniques, ten(10) knowledge areas and how it applies to PMI project management methodology/framework
- To fully understand the key concepts, trends and emerging practices, tailoring considerations for agile and adaptive environment
- To prepare participants' to be able to write and pass the PMP exam on the first attempt
- To post-assess participants after the training
- To give professional guidance for the PMP certification Eligibility Application

Training Brief

Practical Aspect:

Participants will be taken through hands -on exercises/activities like:

- Process flow/Gantt Charts, Network Diagram, Decision Tree Diagram etc. for past projects and projects established during the training
- Use of actual project charter during activities and discussions
- Use of actual project plans and other deliverables during activities and discussions

- Use of Ms. Project 2013 in setting up, planning and control of projects

Training Methodologies

This will be practically all encompassing and will involve Facilitation/lecture (slide presentation), Class discussion, Group discussion, case studies using project charters, plans etc. for different types of projects, scenarios, practical exercises, short end of lessons/chapters and module quizzes, Post training evaluation assessment.
