Course Summary

This Project Management course is in line with PMBOK Sixth Edition, It equip learners with the knowledge, tools and techniques required to successfully complete any project. Upon completion, Participants are fully prepared to bag the PMP certification from PMI.

In the past few decades, organizations have discovered something incredible: the principles that have been used to create enormous successes in large projects can be applied to projects of any size to create amazing success. As a result, many employees are expected to understand project management techniques and how to apply them to projects of any size.

This Project Management course will give participants an overview of the entire project management process, as well as key project management tools that they can use every day. Working with project planning documents, such as needs assessments, risk management plan, and a communication plan will provide benefits throughout your organization.
